

IFRC training map:

Cash Competency level	Training type		
	Theory training	Practical training	Specialised training
Entry	<ul style="list-style-type: none"> • “Introduction to CTP” online course (EN, FR, SP) • or “FACT/ERU cash induction training” (3 hour FTF) 		<ul style="list-style-type: none"> • “Market assessments: Introduction” online course (EN, FR, SP, AR) • “Market assessments: RAM” online course (EN, FR, SP, AR)
Generalist	<ul style="list-style-type: none"> • IFRC 4-day FTF training • or online 40 hour “CTP in emergencies” moodle (EN, FR, SP) 	<ul style="list-style-type: none"> • RCM Practical cash in emergencies training (PECT) 	<ul style="list-style-type: none"> • IFRC CTP Training of Trainers (EN, FR, SP) • RAM module FTF
Advanced			<ul style="list-style-type: none"> • MAG FTF (in development)

*Note that the determination of competency level considers the completed trainings as well as field experience.

Guidelines and tools:

Cash Hub and Cash in Emergencies toolkit:

www.cash-hub.org

This Movement Cash Hub and Cash in Emergencies toolkit offers tools, practical guidance and minimum standards easily accessible to staff and volunteers.

RCM Guidelines for cash transfer programming ([EN](#), [FR](#), [AR](#))

The aim of this document is to normalize the use of cash in multi-sectoral integrated programming, planning and disaster preparedness and to help build capacity on how to start cash programmes.

RCM Cash transfer programming: Guidelines for mainstreaming and preparedness ([EN](#), [FR](#), [SP](#), [AR](#))

This guidance has been structured to facilitate easy use by National Societies that wish to work on strengthening CTP preparedness prior to a disaster response.

RCM Rapid Assessments for Markets (RAM): Guidelines ([EN](#), [FR](#), [SP](#), [AR](#))

The RAM is an instrument allowing humanitarian practitioners with limited market expertise and time to develop a rapid and basic understanding of key markets within the first few days after a shock.

RCM Market Analysis Guidance (MAG) ([EN](#))

The MAG suggests processes and tools aimed at integrating market analysis into the different phases of the project and gives continuity to the RAM in the sense that it allows for a more detailed analysis and more solid basis for market-related programme decisions.
